INDEX

Absorption, of glucose from the alimentary tract of rats deprived of the vitamine B complex, 247.
Activity, effect of on heat production of pigeons, 529, *et seq.*
Adams, S. Franklin, Obesity as a precursor of diabetes, 339.
Age, effect of,
—on heat production of pigeons, 532, *et seq.*
—on hemoglobin and erythrocyte counts in rats, 301, *et seq.*
—on iron content in rat, 209.
—on heat production of rats, 380.
Alfalfa, effect on growth in rats, 324.
Alimentary tract, The absorption of glucose from, of rats deprived of the vitamin B complex, 247.
Aluminum, place in normal nutrition, 541.
Anorexia, the role of vitamin B in, 49.
Apparatus, respiration, for pigeons, 480, *et seq.* for rats, 348.
Ash content of grain, 293.

Becker, J. Ernestine, (See Simmonds, Nina and McCollum, E. V.), 39.
Beef muscle, connective tissue content, some factors affecting, 165.
Beef steer, mineral metabolism of, 201.
Benedict, Francis G., and Grace MacLeod, The heat production of the albino rat.
—I. Technique, activity control, and the influence of fasting, 343.
—II. Influence of environmental temperature, age, and sex; comparison with the basal metabolism of man, 367.
Benedict, Francis G. and Oscar Riddle, The measurement of the basal heat production of pigeons.
—I. Instrumental Technique, 475.
—II. Physiological technique, 497.
Bing, Franklin C. (See Smith, Arthur H.) 179.
Blood formation of the albino rat on a standard dietary regime, 299.
Boys, work metabolism of, 72.

Calcium and Phosphorus metabolism in dairy cows. III. The adequate ration for high-producing cows and the effect of exercise on calcium, phosphorus and nitrogen balance, 445.
Calcium
—balance in steers, 204.
—content of grain, 294.
Carbohydrate, muscular efficiency on high carbohydrate and high fat diets, 105.
Carbon: nitrogen ratio in the urine of rats deprived of one or both factors of the vitamin B complex, 467.
Cereal grains, growth rates of brook trout reared upon feed combinations of, 233.
Collagen, content of beef, 170, *et seq.*
Copper, place in normal nutrition, 541.
Crist, John W. (See Dye, Marie), 335.
Crowell, M. F. (See McCay, C. M. and Dilley, W. E.), 233.

Daniels, Amy L., Mate L. Giddings and Dorothy Jordan, The effect of heat on the antineuritic vitamin of milk, 455.
Diabetes, obesity as a precursor of, 339.
Diets,
—high carbohydrate and high fat, effect of, on muscular efficiency, 105.
—purified, the effect of, and their modifications on growth and testicular degeneration in male rats, 311.
Dilley, W. E. (See McCay, C. M. and Crowell, M. F.) 233.
Doves, races of studied for heat production, 499.
Dye, Marie and John W. Crist, Relation of soil fertility to vitamin A content of leaf lettuce, 335.

Economy, vital, in food production, 91.
Elastin, content in beef, 171, *et seq.*
Evans, H. M.,
—The effect of inadequate vitamin B upon sexual physiology in the male, 1.
—Relation of vitamin E to growth and vigor, 23.
Exercise, effect of, on calcium, phosphorus and nitrogen balance in dairy cows, 445.

Fasting, influence of,
—on heat production of pigeons, 515, *et seq.*
—on metabolism of rats, 362.

Fat, muscular efficiency on high carbohydrate and high fat diets, 105.
Fatness in beef, effect on toughness, 174.
Fish meal, use of in feeding trout, 242.
Food,
—human, vital economy in production, 91.
—supplementary values among. II. Growth and reproduction on white bread with various supplements, 29.
Forbes, E. B.,
—(See Miller, R. C. and Smythe, C. V.), 217.
—R. B. French and T. V. Letonoff. The mineral metabolism of the beef steer, 201.
French, R. B. (See Forbes, E. B. and Letonoff, T. V.) 201.

Gestation, effect of on blood formation, 307.
Giddings, Mate L. (See Daniels, Amy L. and Jordan, Dorothy) 455.
Glucose, absorption of, from the alimentary tract of rats deprived of the vitamin B complex, 247.
Grain, the mineral content of, 293.
Greaves, J. E. and C. T. Hirst, The mineral content of grain, 293.
Growth
—and reproduction on white bread with various supplements, 29.
—Improved rate of, in stock albino rats, 179.
—rate, formulae for, 186 *et seq.*
—rate, improved in albino rats, 179.
—rates of brook trout reared upon purified rations, upon dry skim milk diets, and upon feed combinations of cereal grains, 233.
—relation of vitamin E to, 23.
—the effect of purified diets and their modifications on, and testicular degeneration in male rats, 311.
—vitamin B *versus* vitamins A and D requirement for, of nursing young of the albino rat, 155.

Haines, W. T. (See Mitchell, H. H. and Hamilton, T. S.), 165.
Hamilton, T. S. (See Mitchell, H. H. and Haines, W. T.), 165.
Hartman, Arthur M. (See Turner, William A.), 445.
Heat,
—effect of, on the antineuritic vitamin of milk, 455.
—production, measurement of basal in pigeons, instrumental technique, 475; physiological technique, 497.
—production, of the albino rat. I. Technique, activity control and the influence of fasting, 343. II. Influence of environmental Temperature, Age and Sex; comparison with the basal metabolism of man, 367.
Hirst, C. T. (See Greaves, J. E.), 293.

Iron
—content of grain, 297.
—content of the albino rat at different stages of the life cycle, the, 209.
—of meats, a study of the utilization of, as compared with other protein foods, 217.

Jordan, Dorothy (See Daniels, Amy L. and Giddings, Mate L.), 455.

Kik, M. C. (See Sure, Barnett and Walker, Dorothy J.) 299.
Koehne, Martha, and Lafayette B. Mendel, The utilization of fatty oils given parenterally, 399.
Kon, Stanislaus, K., On the Carbon: Nitrogen (C/N) ratio in the urine of rats deprived of one or both factors of the vitamin B complex, 467.

Letonoff, T. V. (See Forbes, E. B. and French, R. B.), 201.
Lettuce
—effect on growth in rats, 318.
—leaf, relation of soil fertility to vitamin A content of, 335.

MacLeod, Grace,
—(See Benedict, Francis G.) 343, 367.
—(See Rose, Mary S.), 29.
Magnesium
—balance in steers, 204.
—content of grain, 295.
Manganese, place in normal nutrition, 541.
Marsh, M. Elizabeth,
—The character of the energy metabolism during work, 57.
—and John R. Murlin, Muscular efficiency on high carbohydrate and high fat diets, 105.
Mason, Karl E., The effect of purified diets, and their modifications, on growth and testicular degeneration in male rats, 311.

McCay, C. M., W. E. Dilley and M. F. Crowell, Growth rates of brook trout reared upon purified rations, upon dry skim milk diets, and upon feed combinations of cereal grains, 233.
McCollum, E. V. (See Simmonds, Nina; and Becker, Ernestine), 39.
Meats, iron of, a study of the utilization of, as compared with other protein foods, 217.
Mendel, Lafayette (See Koehne, Martha), 399.
Metabolism,
—basal, of albino rat, 391.
—basal, of albino rat, compared with other animals, 393.
—basal, of pigeons, I. Instrumental technique, 475. II. Physiological technique, 497.
—calcium and phosphorus in dairy cows, 445.
—energy, character of during work, 57.
—mineral, of the beef steer, the, 201.
Milk,
—dry skim, growth rates of brook trout reared upon, 233.
—effect of heat on the antineuritic vitamin of, 455.
Miller, R. C.
—(See Smythe, C. V.), 209.
—E. B. Forbes and C. V. Smythe, A study of the utilization of the iron of meats as compared with other protein foods, 217.
Mineral content of grain, 293.
Mitchell, H. H.,
—The physiological effects of protein, 271.
—T. S. Hamilton, and W. T. Haines, Some factors affecting the connective tissue content of beef muscle, 165
Murlin, John R.
—Vital economy in human food production, 91.
—(See Marsh, M. Elizabeth), 105.
Muscular efficiency,
—on high carbohydrate and high fat diets, 105.
—possible causes for low, 125.

Net energy, definition, of, 93.
Nitrogen balance,
Net energy, definition of, 93.
Nitrogen balance
—in cows, 445.
—in dogs, effect of parenteral oils on, 435.
—in steers, 204.
—(Carbon:) ratio in the urine of rats deprived of one or both factors of the vitamin B complex, 467.
Nutrition, normal, aluminum, copper, manganese and zinc in, 541.

Obesity as a precursor of diabetes, 339.
Oils, fatty, utilization of, given parenterally, 399.
Osgood, H. S. (See Pierce, H. B. and Polansky, J. B.), 247.

Parental feeding of oils, 399.
Peanut meal, use of in feeding trout, 242.
Phosphorous
—balance in steers, 204.
—content of grain, 296.
—metabolism of dairy cow, 445.
Pierce, H. B., H. S. Osgood and J. B. Polansky, The absorption of glucose from the alimentary tract of rats deprived of the vitamin B complex, 247.
Pigeons,
—measurement of basal heat production of, instrumental technique, 475, physiological technique, 497.
—races of, studied for heat production, 497.
Polansky, J. B. (See Pierce H. B. and Osgood, H. S.), 247.
Potassium content of grain, 296.
Protein,
—physiological effects of, 271.
—sparing, effect of fat given parenterally, on, 430.

Rat, albino
—activity control, 343.
—blood formation of, on a standard dietary regime, 299.
—heat production of, 343, 367.
—improved rate of growth of, 179.
—influence of age on heat production, 367.
—influence of environmental temperature, on heat production of, 367.
—influence of fasting, 343.
—influence of sex on heat production of, 367.
—iron content of, at different stages of the life cycle, 209.
—nursing, vitamin requirements for, 139, 155, 537.
—role of vitamin B in aneroxia of, 49.
—vitamin requirements of nursing young. Production of uncomplicated vitamin B deficiency, 537.

Rats, carbon: nitrogen ratio in rats deprived of one or both factors of the vitamin B complex, 467.
Reproduction, growth and, on white bread with various supplements, 29.
Respiration apparatus for rats, 348; for pigeons, 480.
Respiratory quotient
—as an index of metabolism in work, 65.
—of pigeons, 506, *et seq.*
Riddle, Oscar, (See Benedict, Francis G.), 475, 497.
Rose, Mary Swartz,
—What place have aluminum, copper, manganese and zinc in normal nutrition? 541.
—and Grace MacLeod, Supplementary values among foods. II. Growth and reproduction on white bread with various supplements, 29.

Season, influence of on metab. of rats, 371.
Sex, influence of on heat production of rats, 385.
Sherman, Henry C, Nutritional significance of our present knowledge of the multiple nature of vitamin B, 191.
Simmonds, Nina, J. Ernestine Becker and E. V. McCollum, The distribution of vitamin E, 39.

Smith, Margaret Elizabeth, (See Sure, Barnett), 537.
Smythe, C. V.
—(See Miller, R. C. and Forbes, E. B.), 217.
—and R. C. Miller. The iron content of the albino rat at different stages of the life cycle, 209.
Soil fertility, relation of, to vitamin A content of leaf lettuce, 335.
Starvation, effect of on utilization of injected oils, 418.
Sulfur content of grain, 297.
Sure, Barnett,
—A detailed study of the role of vitamin B in anorexia in the albino rat, 49.
—Vitamin requirements of nursing young. III. A quantitative biological method for the study of vitamin B requirements of nursing young of the albino rat, 139.
—Vitamin requirements of nursing young. IV. Vitamin B *versus* vitamins A and D requirement for growth of nursing young of the albino rat, 155.
—and Margaret Elizabeth Smith, Vitamin requirements of nursing young. VII. Production of uncomplicated vitamin B deficiency in the nursing young of the albino rat, 537.
—M. C. Kik and Dorothy J. Walker, Blood formation of the albino rat on a standard dietary regime, 299.

Temperature,
—environmental, influence of on metabolism of rats, 367, 376.
—influence of in metabolism of pigeons, 521, *et seq.*
Testes, normality of, as affected by vitamin B, 6, *et seq.*
Testicular degeneration, The effect of purified diets and their modifications on growth and, in male rats, 311.
Tissue, connective, content of beef muscle, some factors affecting, 165.
Trout, brook, growth rates of, reared upon purified rations, upon dry skim milk diets, and upon feed combinations of cereal grains, 233.
Turner, William A. and Arthur M. Hartman, Calcium and phosphorus metabolism in dairy cows. III. The adequate ration for high-producing cows and the effect of exercise on calcium, phosphorus and nitrogen balances, 445.

Urine, C:N ratio in, in vitamin B deficient rats, 467.

Vigor, relation of vitamin E to, 23.
Vitamin,
—antineuritic, effect of heat on the, 455.
—requirements of nursing young. III A quantitative biological method for the study of vitamin B requirements of nursing young of the albino rat, 139.
—requirements of nursing young, VII Production of uncomplicated Vitamin B deficiency in the nursing young of the albino rat, 537.
Vitamin A content of leaf lettuce, relation of soil fertility to, 335.

Vitamin B,
—complex, absorption of glucose in rats deprived of, 247.
—deficiency, production of in the albino rat, 537.
—deprivation, carbon: nitrogen ratio in urine of rats, 467.
—a detailed study of the role of, in anorexia in the albino rat, 49.
—nutritional significance of our present knowledge of the multiple nature of, 191.
—*versus* vitamins A and D requirement for growth of nursing young of the albino rat, 155.
Vitamin E,
distribution of, 39.
—effect of inadequate, upon sexual physiology in the male, 1.
—relation to growth and vigor, 23.

Walker, Dorothy J., (See Sure, Barnett and Kik, M. C.), 299.
What place have aluminum, copper, manganese and zinc in normal nutrition? 541.
Work, character of energy metabolism in, 57.

Zinc, place in normal nutrition, 541.
